Executive Summary

Choose life...being a diverse construction company we pride ourselves with a fleet of plant and machinery ranging from TLBs, Excavators, concrete mixers, 10 cube Tipper trucks, 34ton side Tipper trucks. Based in Kwa Zulu Natal midlands confidently we supply and render services of building material across the glorious Province such as building blocks (SABS approved), cement bricks, river sand, building sand, crusher stone, G-5 and concrete mix.

Our block yard team consists of qualified dedicated personnel in our field ensuring timeous delivery to our valued customers. Empowering the youth, we offer opportunities of different skills while we grow our business in the industry. Having built structures like community halls, reservoirs, bridges, libraries, water reticulation, residential premises, etc. our strength goes hand in hand with our mission which is to choose life.

About us

Founded in 2009, Enduneni Contractors has built a solid reputation in project management. The business is registered with the Construction Industry Development Board (CIDB no is 204253). The business is owned and managed by a sole member. Our services include a wide range of diversified project management and construction services.

OUR VALUES

Execution

Execution in every situation

With our global presence, along with the key role we play in driving the global economy, we must lead by example. That means upholding the highest standards in our daily tasks as well as in the strategic decisions we make.

Excellence

The pursuit of excellence in every area

As a leader in our industry, we owe it to ourselves to engage in a perpetual quest for excellence at every level of our organization. From operational excellence all the way to excellence in our environmental performance, as well as in our interactions with customers, suppliers and staff members.

Boldness

What sets us apart from our competitors is the fact that we are small enterprise and our overheads are very minimal which works to the benefit of the client because our prices are often lesser than our well established competitors. The fact that we have decided to subcontract under well established companies to gain experience and exposure to the industry also gives us an urge. The business is making noticeable inroads in securing a huge share of the market in the construction sector, through our innovative approaches, equity ownership, youth employment and BEE credentials.

Experience

The company's competitive edge does not only rest on its 100% black ownership and equity credentials, but also our management's complete understanding of Project Management. We have employed young and self-motivated individuals who have relevant academic exposure and over 5 years of accumulated experience in managing Construction projects. Our ongoing exposure and education include subscriptions to relevant Project Management and construction related magazines and other business professional journals.

OUR TEAM

Director / CEO

Mr. Moffat V. Mosia has brought experience, exposure and training to the business. He has 7 years accumulated experience in the construction business. His position on social structure outside the work environment has provided him long years; worth experience as a team leader in highly competitive environments.

Personnel

Miss Nokthula Buthelezi is bringing solid expertise in the areas of administration, communication skills and sales. Previous experience includes administration and sales. She has picked up more knowledge and experience in the fields of project, contract, financial and general resource management. These also present the opportunities to develop across other fields of sourcing.

Miss Nokthula Buthelezi whose agile and proactive character is going to add insurmountable value to the business. She is typically task oriented with a strong sense of urgency and keen focus on getting everything in order.

OUR SERVICES

General Building

Enduneni Contractors strives to produce quality work, on time, to the complete satisfaction of its clients and success is measured by the amount of repeat business. The Building business unit currently operates in KwaZulu-Natal.

Enduneni Contractors has an extensive track record of successfully completed contracts in a variety of building types:

- Tourism and Leisure Facilities
- Educational Institutions
- Shopping Centres
- Hospitals and Medical Centres
- Office Complexes
- Factories and Warehouses
- Houses and Residential Apartments

Roads and Earthworks

Enduneni Contractors has developed its multi-faceted skills through many years of experience gained working throughout KwaZulu-Natal. The business unit seeks to play a leading role in the development of physical infrastructure throughout the province in the following key areas:

Construction and rehabilitation of roads, freeways, airports, pipelines, dams, water schemes and urban services. Construction and Earthworks, together with its specialist surfacing division, Asphaltting, have been involved in a large variety of projects with diverse surfacing specifications including concrete paving.

Civil Engineering

Enduneni Contractors engineering provides a comprehensive portfolio of engineering services with an impressive reputation for delivering cost effective and efficient solutions for clients. These services include: laying of pipelines, dams, bridges, geotechnical, chimneys and last but not least, refractory packages. Enduneni Contractors Engineering is a fast growing brand in the field of engineering and boasts a network of technically qualified and experienced people with state of the art systems. The company is equipped with the necessary resources to meet the diverse and unique challenges faced by the clients.

The major plant resources for Enduneni Contractors and Earthworks and Asphaltting operations are provided by The Plant department, these include: crushers, asphalt and surfacing equipment. These processes are used for removing deposits of sludge, scale and chemical residue from pipelines, vessels, reactors, columns, tubes and tanks. Customer satisfaction is achieved through the application of safe first world management expertise, keeping up to date with technology and the timeous completion of projects in high standards.

OUR SERVICES

Enduneni Ready Mix Concrete

Enduneni Contractors Ready Mix Plant is based in Nquthu, KwaZulu Natal, with an operation offering ready-mix concrete products, associated services and solutions of the highest quality.

We have the expertise to cater for a wide variety of construction requirements. Enduneni Contractors Concrete has been a reliable supplier in many major infrastructure and industrial projects including national roads, dams and commercial buildings. We also have many satisfied customers in the residential arena where we have been a key supplier in the building of family homes and the upgrading of agricultural structures.

Our highly skilled staff have years of experience in the ready-mix concrete industry and our team's core focus is on delivering a quality product with superior service.

We love to put our expertise to the test and take an immense pride in creating tailored products and solutions that best suit our customers' needs.

OUR CONCRETE PLANT

Our products are designed by a specialist concrete technologist and all designs are in accordance with the relevant SABS specifications. In addition to our standard mixes, Enduneni Contractors is able to produce a wide range of products, which include, but are not limited to:

-  Fibre Concretes
-  Durability Concretes
-  Grouts
-  Self-Compacting Concretes
-  Mortar Mix
-  Soilcretes
-  Shotcretes
-  Light Weight Concretes
